Aims

- 1. Establish a global network of international education associations for mutual learning, information sharing, and identifying emerging issues, problems and opportunities.**
- 2. Contribute intellectually, organizationally, or programmatically to the conferences and other learning venues of member associations.**
3. Share information about and help build complementary training and professional-development programs by member associations.
4. Advocate, commission or sponsor research on topics related to international education.
5. Foster professional recognition of international education practitioners and leaders worldwide, and assist new international education associations.
6. Anticipate emerging issues having cross-regional or global impacts on international education and on the exchange of educational ideas, students, faculty/staff and related activities.
